

**AMENDMENTS TO THE CLAIMS:**

The following listing of claims replaces all prior versions, and listings, of claims in the application. If any claims are designated "cancelled," please cancel such claims without prejudice.

**Listing of Claims:**

1                   45. (currently amended)     A method for directly killing  
2 microorganisms and ~~or~~ inhibiting the growth of microorganisms responsible for fungal  
3 infection and non-pathological body malodor comprising the steps of preparing a  
4 therapeutically effective amount of an anticholinergic quaternary amine compound and  
5 administering said anticholinergic quaternary amine compound to an area of a human  
6 body so as to directly kill and inhibit ~~counteract the effects of~~ said microorganisms  
7 resident on or within said area.

1                   46. (original)     The method according to claim 45, further comprising  
2 administration of the anticholinergic quaternary amine (ACQA) compound as a  
3 formulation in conjunction with an excipient, base or support material, wherein the  
4 concentration of the anticholinergic quaternary amine compound in the formulation is in  
5 an amount of from about 0.0001% to about 20% w/w.

1                   47. (original)     The method according to claim 46, wherein the  
2 concentration of the anticholinergic quaternary amine compound in the formulation is in  
3 an amount of from about 0.001% to about 10% w/w.

1                   48. (original) The method according to claim 47, wherein the  
2 concentration of the anticholinergic quaternary amine compound in the formulation is in  
3 an amount of from about 0.05% to about 5% w/w.

1                   49. (original) The method according to claim 46, wherein the  
2 anticholinergic quaternary amine compound comprises glycopyrrolate.
